

Dear FCC,                    I benefit from listening to xm satellite radio and its traffic and weather channels. Sat radio provides a variety and quality that are not available elsewhere! I pay for these services and have a large investment in the receivers and it should not be up to the national assoc of broadcasters to dictate what I am permitted to hear! Please reject NAP's petition 04-160 and support xm sat radio to provide the kind of programming I desire and deserve! Thank you for your time to read my message.
